DETAILED ACTION

Response to Preliminary Amendment

This Office Action is in response to applicant's preliminary amendment filed on December 1, 2003. Claims 1-44 have been cancelled. Claims 45-70 are newly added claims.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 45-65, drawn to an electrokinetic delivery system and method of treatment, classified in class 604, subclass 20.
- II. Claims 66-70, drawn to a method of treatment by electrokinetic self-administration of a medicament into a treatment site, classified in class 604, subclass 20.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the method of invention II may be utilized with other apparatuses other than the apparatus in invention I such as one that would apply to the individual's body other than to the individual's finger.

Because these inventions are distinct for the reasons given above and the search required for Invention I is not required for Invention II, restriction for examination purposes as indicated is proper.

A telephone call was made to Richard Besha on January 6, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
